- Offer a wide array of both rubber and spray-on linings
- Technical expertise in providing recommendations in application of linings
- NACE Level III inspector on staff

## Industries

## Bulk Liquid Transportation

In the transportation industry, time is money. At Goodwest Linings & Coatings we have been working with customers for more than 25 years to get their tank trailers repaired and back in service as soon as possible

We have a highly experienced staff that can perform lining inspections and provide a repair estimate within 24 hours. We cater to businesses hauling petrochemical, chemical, acid, food and beverage, produced water and high-temperature products.

## Services

- DOT lining inspections and certifications
- 24 hour turnaround for inspection reports with repair estimates
- Expedited inspections and repairs
- Mobile field crew
- Localized repair
- Full strip and reline
- New lining installation
- Chloride sulfate nitrate (CSN) testing and removal

*Goodwest has serviced about 1,000 tank trailers, earning the trust of companies for 25 years.*
