Goodwest's Growth Continues - Expanding Facility

June 1, 2015 RANCHO CUCAMONGA Calif. — Located on four acres in Southern California, Goodwest Linings & Coatings has recently completed the expansion of its facility from 20,000 to 50,000 square feet. To support the growth, Goodwest announced they are hiring more employees as well.

Patrick Sears, VP of Sales and Marketing for Goodwest, said, "The primary reason for this expansion is to increase our capacity, which has resulted in better throughput and improved lead times." Sears continued, "We now have a 70ft long abrasive blast booth with 3 nozzles, one of the largest in Southern California. We also added new specialized spray equipment and a fourth 50ft long liquid spray booth. All this means we can move more through the shop and turn around our customers' equipment even faster." Sears noted that phase II of the expansion, which includes additional Fusion Bonded Epoxy capabilities, is set to begin in August.

More information on Goodwest's facility is located at www.goodwestlining.com/facility.php. To apply to work for Goodwest, please submit your resume by visiting www.goodwestlining.com/employment.php.
